

# Your New Bolder Group Exchange (BGX) Login

A more secure way to Access your Account Details

## **A newly improved Bolder Investor and Client Portal Login System**

We are thrilled to announce that Bolder Group is implementing an enhanced and more secure login system for the Investor/Client Portal, which will also streamline your user experience. The company is dedicated to giving you optimal protection as we prioritize your account security.

This new system allows you the flexibility to connect your Bolder login with your personal identity provider, i.e. your Google or Microsoft account. Alternatively, you can keep your access with an email/password combination.

### **What are the Authentication Method Options?**

**Option 1** – Sign-in using your personal identity provider. After you have signed in using your Google or Microsoft login, you will be able to connect your Bolder account by a simple “Link Account” option.

-----OR-----

**Option 2** – Alternatively, you can choose **not** to use your personal identity provider and use email/password to sign up. However, you will need to configure 2-step authentication, prompting you to enter a one-time password code using an authenticator app.

### **What else can you expect from our side?**

We will provide guidelines such as guides, pictures, and videos to help you understand how to transition to the new login system. Our support team will assist you if any questions or issues arise while using the new login system.

### **What more can you expect?**

Bolder Group values your trust in working with us, and we are committed to offering you a secure and reliable service at the base of business.

Please watch the tutorial and follow the steps to successfully implement the authentication improvement on your account.

### **Frequently Asked Questions:**

**1- Is there is a more detailed explanation available?**

A longer version of the description can be found by downloading the detailed user guide.

**2- If I'm struggling with the linking of my account, can someone help?**

Please get in touch using the contact information on our website.

**3- Is any of my data shared with ID providers like Google and Microsoft?**

No, we don't share any information with the ID provider.

**4- Is this a one-time change or linking?**

Yes, this signup and linking of your account is a one-time process.
